Core Competencies

Profile Summary

Front-End Architecture & Application Design	Cross-Platform Mobile & Desktop Application Development
Game Development & Real-Time Multiplayer Systems	Software Development Life Cycle Management
Database Design & Data Management	UI/UX Design & User-Centric Interface Optimization
Agile Team Leadership & Mentorship	Quality Assurance & Performance Optimization
E-Learning & Enterprise Web Solution Development	Problem-Solving & Technical Analysis

- Accomplished **Front-End Architect and Web Developer** with **15 years of experience** delivering **high-performance web, mobile, & desktop applications** across **gaming, e-learning, and enterprise domains**.
- Expertise in **translating complex business requirements** into **scalable, user-centric solutions** using modern technologies and frameworks.
- Proficient in **HTML5, CSS3/SCSS, JavaScript (ES6+), TypeScript, Angular, Ionic, React.js, Next.js, Svelte, Electron.js, Node.js, Dart and JQuery**, with strong experience in **mobile app development (Hybrid iOS/Android using Swift, Kotlin)** and **desktop application development**.
- Skilled in server-side programming using **Python, PHP, JSP, ASP, and .NET Core**, and well-versed in **database design and management with MongoDB and MySQL**.
- Proven track record in the **gaming industry**, contributing to high-traffic platforms in **poker, rummy, fantasy, and online casino games**, including hybrid applications, desktop executables, payment gateway integration, and real-time server-side solutions.
- Experienced in **unit testing, RTP testing, & performance optimization** for complex applications.
- Recognized for **technical analysis, solution architecture, team leadership, and cross-functional collaboration**, with a highlighted skill to deliver projects on time while maintaining **high-quality standards and user experience excellence**.

Achievements & Highlights:

- Recognized as **“Excellent Developer of the Month”** at the company level for outstanding performance and contributions to project delivery.
- Achieved a GATE Score of 346**, showcasing strong technical aptitude & problem-solving skills.
- Successfully contributed to multiple high-profile web and gaming projects**, including NCERT e-learning platforms and leading online poker, rummy, and casino gaming applications.

Technical Skills

- **Programming & Scripting Languages:** HTML4/5 | CSS2/3 | SCSS | DHTML | React.js | Next.js | JavaScript (Core & Object-Oriented) | TypeScript | JQuery | Ajax | Node.js | Node WebKit | Python | PHP | JSP | Swift 4 | Kotlin | Android (Core & Advanced Java) | DART
- **Frameworks & Libraries:** React | Angular 10 | Angular 14 | Ionic 4 | Django | Prototype.js | Backbone.js | Svelte | Electron.js | Canvas
- **Databases:** MongoDB | MySQL
- **Design & Development Tools / IDEs:** Visual Studio | XCode | Android Studio | Eclipse | IntelliJ IDEA | NetBeans | Komodo | WebStorm | Dreamweaver CS 5.5 | WAMP
- **Servers / Deployment:** Apache Tomcat | Node.js Server | ASP.NET Core Server
- **Other Technologies / Skills:** XML | XSLT | XPath | XHTML | JSON | UI/UX Design Implementation | Hybrid App Development (APK & IPA) | Desktop Executable Applications (Installer, Updater) | Payment Gateway Integration | Unit Testing | RTP Testing | Exploit Testing | Permutation Distribution Testing
- **Cloud:** AWS, Azure, Firebase
- **LLM / Generative AI:** ChatGPT, Gemini, Claude AI.
- **LLM APIs & Inference:** Groq API.
- **AI Assisted Development:** Cursor, Antigravity, GitHub Copilot.
- **AI/ML Platform & Deployment:** Hugging Face, Gradio.
- **Agentic AI:** AI Agents, Voice Agent, A2A.

Organization Experience

Since Dec 2025 | Raize Games | Senior Lead Developer

Key Result Areas:

- Leading the design, development, and implementation of front-end architecture for the RaizeGames (<https://play.raize.poker>) using React.js, Next.js HTML5, CSS3, TypeScript, Node.js and WebSocket for real-time communication.
- Collaborating with cross-functional teams to develop high-quality, responsive UI/UX for web and desktop applications.
- Managing integration with backend APIs and third-party services.
- Overseeing performance optimization, bug fixing, and front-end scalability improvements.
- Deployed Frontend on AWS and Versal for dev/production hosting

Projects:

- **iGaming Product** –React.js, Next.js, Node.js; Team Size: 4.
- **Admin Panel Development:** React.js, MySQL

Achievements:

- Improving front-end load performance through optimization and modular architecture.
- Enhancing user engagement with responsive and interactive UI design.

June 2023 – Nov 2025 | OneVerse Gaming Technology Pvt. Ltd., Gurgaon | Front - End Architect

Key Result Areas:

- Leading the design, development, and implementation of front-end architecture for the Poker Product (www.spartanpoker.com) using Angular 14, HTML5, CSS3, TypeScript, Node.js, Electron.js, Kotlin, Swift4, Svelte, and WebSocket for real-time gameplay communication.
- Collaborating with cross-functional teams to develop high-quality, responsive UI/UX for web and desktop applications.
- Managing integration with backend APIs and third-party services for real-time gaming functionalities.
- Conducting code reviews, ensuring adherence to coding standards, and mentoring junior developers to enhance team productivity.
- Overseeing performance optimization, bug fixing, and front-end scalability improvements.
- Deployed Frontend on AWS for production hosting

Projects:

- **Poker Product** – Angular 14, Node.js, Electron.js, Kotlin, Swift4, Svelte; Team Size: 7.
- **Website Development** - <https://sniper.poker>, <https://aceclubpoker.com> – React.js, Next.js, mySql, Strapi CMS
- **Bonus Admin Panel Development:** React.js, mySql

Achievements:

- Improving front-end load performance through optimization and modular architecture.
- Enhancing user engagement with responsive and interactive UI design.

January 2019 - May 2023 | Bioveda Action Research Pvt. Ltd. (Playone), Noida | Senior Software Engineer

Key Result Areas:

- Developed hybrid mobile applications for Fantasy and Rummy Products using Ionic 4, Angular 6, HTML5, CSS3, TypeScript, and JSON.
- Designed and implemented dynamic UI components, interactive gameplay modules, and server-side communication.
- Collaborated in a small team environment to deliver scalable, cross-platform mobile applications.
- Conducted debugging, testing, and optimization for performance across Android and iOS platforms.
- Deployed Frontend application on AWS for production hosting

Projects:

- **Rummy Product** – Ionic 4, Angular 6, TypeScript, JSON, ASP.NET Core; Team Size: 2.
- **Website Development:** React.js, Next.js, mySql
- **Configured AWS S3 bucket for image storage**
- **Fantasy Product (Android + iOS App)** – Ionic 4, Python, Angular 6, Node.js, TypeScript, HTML5, CSS3, JSON; Team Size: 6;

October 2016 - December 2018 | Jungle Games Pvt. Ltd., Delhi | Senior Software Engineer

Key Result Areas:

- Developed mobile clients and hybrid applications for Rummy games using Android, Swift 4, Dart, HTML5, Canvas, CSS3, OO JavaScript, jQuery, Ajax, XML, PHP, and Angular 4.
- Integrated game logic with server-side APIs for real-time multiplayer functionality.
- Designed and maintained user-friendly interfaces for hybrid APK and IPA applications.
- Conducted testing and debugging for mobile application stability and performance.

Projects:

- **Mobile Client (Rummy Game) + Hybrid APK + Hybrid IPA** - HTML5, CSS3, JavaScript, jQuery, Dart, Python, Canvas– Team Size: 2; Link: <https://m.jungleerummy.com>

July 2014 - October 2016 | Gauss Networks Pvt. Ltd. | Senior Game Developer

Key Result Areas:

- Developed desktop poker game executables using Node WebKit, Grunt, Angular.js, HTML5, CSS3, OO JavaScript, jQuery, Ajax, and XML.
- Implemented installer and updater modules, along with 3rd party payment gateway integration.
- Developed online card games (Rummy, Poker) and online casino slot games using HTML5, CSS3, OO JavaScript, jQuery, Ajax, XML, Prototype.js, and Node.js.
- Collaborated with small teams to deliver gaming products with high performance and minimal latency.

Projects:

- **Desktop Exe (Poker Game)** – Node WebKit, Angular.js; Team Size: 2; Organization: Gauss Networks; Link: <http://www.adda52.com>
- **Online Cards Game (Rummy & Poker)** – HTML5, CSS3, JavaScript, jQuery, Ajax, XML, Prototype.js, AngularJS; Team Size: 2–4; Link: <http://www.adda52.com>

August 2012 - July 2014 | Ingenuity Gaming Pvt. Ltd., Noida | HTML Developer

Key Result Areas:

- Developed front-end components for online casino slot games and internal gaming framework using HTML5, CSS3, OO JavaScript, jQuery, Ajax, XML, SCSS, Prototype.js, and Node.js.
- Participated in the development of Ingenuity Gaming Framework II for streamlined game development.
- Ensured real-time server communication and game logic implementation for slot games.

Projects:

- **Ingenuity Gaming Framework II** – HTML5, CSS3, JavaScript, Node.js; Team Size: 2
- **Online Casino Slot Games** – HTML5, CSS3, JavaScript, jQuery, Node.js; Team Size: 2–4

November 2011 - March 2012 | NCERT (DSE), New Delhi | Senior Software Engineer

July 2009 - October 2011 | NCERT (DCETA), New Delhi | Web Developer

Key Result Areas:

- Developed e-learning and educational platforms for primary education using HTML5, JavaScript, PHP, jQuery, Ajax, and MySQL.
- Designed login management systems, assessments, grading, and content delivery modules.
- Developed and maintained NCERT departmental websites using HTML, JavaScript, and MS Access.
- Implemented web-based mail clients and CRM systems with Java, J2EE, HTML, and JavaScript.

Projects:

- **Mathematics ICT Kit for Primary Education** – HTML5, JavaScript, jQuery, Ajax, PHP, MySQL; Team Size: 2
- **NCERT Website Development & Maintenance** – HTML, JavaScript, MS Access, Dreamweaver CS 5.5; Links: <http://ncert.nic.in/>, <http://www.ciet.nic.in/>
- **Email Server & CRM** – Java2.0, J2EE 1.5, HTML, JavaScript; Team Size: 4

Certification

Applied Agentic AI Certification

- Learning AI Agent Architecture, Tool Calling, Multi-Agent Systems, Workflow Automation, Prompt Engineering, and LLM Integration.

Academic Details

B.Tech in Computer Science | U.P. Technical University, Lucknow
